

ADDEV MATERIALS

HEALTHCARE & HYGIENE

Improving the reliability of the in-vitro strip tests

CHALLENGE

How to improve the production process of rapid strip tests and improve their reliability?

KEY POINTS

- Having a "ready-to use" material
- Compatible with colored reactive foams

ADDEV VALUE

Sourcing the right compatible material and custom-cut it for having strips on the right size

CUSTOMER BENEFIT

- A ready to use solution
- Time savings
- Quality and repeatability
